PROFESSIONAL SUMMARY

Backend Developer with hands-on experience in ASP.NET Core Web API and Django REST Framework, focused on building secure and scalable RESTful APIs. Skilled in JWT authentication, CRUD operations, and backend system design using Entity Framework Core and MySQL. Passionate about clean architecture, problem-solving, and continuous learning, with a strong foundation in backend development for real-world applications.

TECHNICAL SKILLS

- Programming Languages: C, C#, JavaScript, Python
- Backend Framework: ASP.NET Core Web API, ASP.NET Core MVC, Django, Django REST Framework
- Backend Concepts: JWT Authentication, CRUD Operations, RESTful APIs, Authorization
- Databases: MySQL
- Web Technologies: HTML, CSS
- Tools & Platforms: Git, Postman

Projects

Clinic Management System

ASP.NET Core Web API | Nov 2025 - Dec 2025

- Developed RESTful Web APIs for managing patients, doctors, appointments, and schedules
- Implemented CRUD operations using Entity Framework Core and relational database design
- Applied JWT-based authentication and role-based authorization for secure access
- Structured the project using clean backend architecture and repository pattern

Task Management System

ASP.NET Core Web API | Oct 2025 - Nov 2025

- Built a backend system enabling managers to assign and track tasks for developers
- Designed RESTful APIs to handle task creation, updates, and status management
- Implemented authentication and authorization mechanisms for secure API access
- Used Postman for API testing and validation

Education Management Information System

Django REST Framework | Sept 2024 - Oct 2025

- Developed backend APIs for a Flutter-based mobile application
- Implemented JWT authentication using Django REST Framework
- Designed APIs for user management, secure data access, and role-based permissions
- Integrated MySQL database for persistent data storage

Hotel Management System

Django (Template & Forms) | Feb 2025 - March 2025

- Developed a web-based hotel management system enabling guests to order food and request services
- Implemented backend logic using Django templates and form handling
- Managed database operations and server-side validation

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)
New Summit College | 2023 – Ongoing

Higher Secondary Education (+2 Science – Computer Science)
Arghakhanchi Higher Secondary Boarding School | 2021 – 2023

CERTIFICATIONS & ACTIVITIES

- 60 Hours Android Workshop Training
- Python Bootcamp
- Organized TechTrix 2023 (College Technical Event)
- Participated in College-Level Idea Pitching Competition
