

Saurab Kunwar

Kathmandu, Nepal

saurabkunwar188@gmail.com | **Portfolio** | **LinkedIn** | **GitHub** | +977-9848490952

Profile Summary

MERN stack developer with strong experience building scalable and performant web applications. Proficient in designing end-to-end data flow between frontend, backend, and databases, with hands-on experience in cloud services, caching, and modern development workflows.

Technical Skills

Frontend: React, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Redis

Cloud & Tools: AWS, CI/CD Pipelines, Git/GitHub, Postman

Other: REST APIs, Stripe Payments

Education

BSc. CSIT (Ongoing)

2019 – Present

New Summit College, Nepal

Projects

StuffVault — Full Stack MERN Application

MERN, Redis, AWS, Stripe

- Designed and developed a scalable MERN stack application
- Optimized performance and reduced database load using Redis caching
- Deployed backend services on AWS with cloud-ready architecture
- Integrated Stripe for secure and reliable payment processing
- **Live:** <https://stuffvault.netlify.app>
- **GitHub:** <https://github.com/SaurabKunwar32/StuffVault>

Save The Last — Frontend Project (Hackathon Runner-Up)

React, Tailwind CSS

- Built an awareness-focused platform highlighting endangered wildlife of Nepal
- Presented conservation status, habitats, and environmental threats clearly
- Designed responsive UI components focused on usability
- **Live:** <https://savethelast.netlify.app>
- **GitHub:** <https://github.com/SaurabKunwar32/SaveTheLast>

Simple Shoe Frontend

HTML, Tailwind CSS

- Built during Tailwind CSS learning to practice utility-first styling
- **Live:** <https://startingtailwind-shoes.netlify.app>
- **GitHub:** <https://github.com/SaurabKunwar32/THE-SHOE-COMPANY>

REST Country API Project

React, REST API

- Developed a React application using the REST Countries API
- Practiced API integration and component-based architecture
- **GitHub:** <https://github.com/SaurabKunwar32/RestCountry-API>
